VOLUME 48

SEPTEMBER – DECEMBER 1952

PUBLISHED MONTHLY BY
THE WISTAR INSTITUTE OF ANATOMY AND BIOLOGY
PHILADELPHIA, PENNSYLVANIA

CONTENTS

No. 1 SEPTEMBER 1952

WILLIAM H. CHAMBERS. Biography of Max Rubner with frontispiece 3

V. H. BOOTH. Liver storage of vitamin A by male and female rats. Four figures 13

KENDALL W. KING AND FRED S. ORCUTT. Nutritional studies of the chinchilla, with special reference to ascorbic acid and thiamine 31

LEOPOLD R. CERECEDO, FRANK P. PANZARELLA, AGATHA B. VASTA AND EDWARD C. DE RENZO. Studies on essential fatty acid deficiency in three strains of mice. Two figures 41

BETTY F. STEELE, CHING-HSIANG HSU, ZAIDA H. PIERCE AND H. H. WILLIAMS. Ascorbic acid nutriture in the human. I. Tyrosine metabolism and blood levels of ascorbic acid during ascorbic acid depletion and repletion. One figure 49

MARJORIE M. NELSON, C. WILLET ASLING AND HERBERT M. EVANS. Production of multiple congenital abnormalities in young by maternal pteroylglutamic acid deficiency during gestation. Thirteen figures 61

A. J. SIEDLER AND B. S. SCHWEIGERT. Effect of the level of fat in the diet on the growth performance of dogs. Three figures 81

C. E. FRENCH, R. H. INGRAM, L. K. KNOEBEL AND R. W. SWIFT. The influence of dietary fat and carbohydrate on reproduction and lactation in rats 91

B. E. SHEFFY, K. M. SHAHANI, R. H. GRUMMER, P. H. PHILLIPS AND H. H. SOMMER. Nitrogen constituents of sow's milk as affected by ration and stage of lactation 103

AMERICAN INSTITUTE OF NUTRITION. Proceedings of the sixteenth annual meeting. New York City, April 14–18, 1952 115

Borden Award in Nutrition 123

Osborne and Mendel Award 124

No. 2 OCTOBER 1952

MANUEL SCHREIBER, RICHARD ANDREW COLLINS, HIPÓLITO NIÑO-HERRERA AND CONRAD ARNOLD ELVEHJEM. Dermatosis in weanling rats fed lactose diets. I. The influence of relative humidity and diet. Two figures 125

A. LEONARD SHEFFNER AND OLAF BERGEIM. The effect of peptone and amino acid ingestion upon the concentrations of tissue amino acids. Two figures 139

J. C. ALEXANDER AND D. C. HILL. The effect of heat on the lysine and methionine in sunflower seed oil meal 149

AMBER L. S. CHENG, GEORGE D. KEYDER, LOIS BERGQUIST AND HARRY J. DEUEL, JR. The effect of fat level of the diet on general nutrition. IX. The relationship of radiation injury in the rat to the fat content of the diet. Two figures 161

ALBERT E. SOBEL, ABRAHAM ROSENBERG AND ELI ENGEL. Intravenous injection of fat-soluble vitamins and transfer to milk of injected vitamin A. Three figures 183

E. L. HOVE AND J. O. HARDIN. Diminished urinary creatinine in vitamin E deficient rats 193

F. H. KRATZER. The effect of vitamin B_{12} upon the utilization of choline and betaine by the young poult. Two figures 201

THOMAS H. JUKES AND E. L. ROBERT STOKSTAD. Further observations on the utilization of homocystine, choline and related compounds by chicks. One figure 209

MILLARD J. HORN, AMOS E. BLUM, MADELYN WOMACK AND CHARLES E. F. GERSDORFF. Nutritional evaluation of food proteins by measuring availability of amino acids to microorganisms. I. Cottonseed proteins 231

HAROLD L. ROSENTHAL. The effect of dietary fat and caloric restriction on protein utilization. Four figures 243

EUGENE F. DUBOIS, FRANKLIN G. EBAUGH, JR. AND JAMES D. HARDY WITH THE TECHNICAL ASSISTANCE OF G. F. SODERSTROM AND E. IRENE STEVENS. Basal heat production and elimination of thirteen normal women at temperatures from 22°C. to 35°C. Sixteen figures 257

Osborne and Mendel Award 295

Borden Award in Nutrition 296

No. 3 NOVEMBER 1952

HELLIN A. LOUHI, HSI-HSUAN YÜ, BETTY E. HAWTHORNE AND CLARA A. STORVICK WITH THE TECHNICAL ASSISTANCE OF KATHERINE DING AND BETTY J. GRAVES. Thiamine metabolism of women on controlled diets. I. Daily urinary thiamine excretion and its relation to creatinine excretion. One figure 297

RACHEL B. DUBÉ, ELIZABETH COX JOHNSON, HSI-HSUAN YÜ AND CLARA A. STORVICK WITH THE TECHNICAL ASSISTANCE OF SHIRLEY KOSKO AND SALLY MCFARLAND. Thiamine metabolism of women on controlled diets. II. Daily blood thiamine values. One figure 307

BRUCE D. OWEN AND JOHN P. BOWLAND. The pantothenic acid content of the blood and milk of swine fed supplemental levels of the vitamin 317

J. R. BEATON, J. L. BEARE AND E. W. MCHENRY. Factors affecting the development of acrodynia in pyridoxine-deficient rats 325

F. H. MATTSON, J. H. BENEDICT, J. B. MARTIN AND L. W. BECK. Intermediates formed during the digestion of triglycerides. One figure 335

KARL GUGGENHEIM AND ROBERT E. OLSON. Studies of lipogenesis in certain B-vitamin deficiencies 345

KAARE RODAHL WITH THE TECHNICAL ASSISTANCE OF JAMES EDWARDS, JR. Basal metabolism of the Eskimo 359

EDWARD G. HIGH AND HARRY G. DAY. Fate of lycopene in the rat and its effects on the utilization of carotene and vitamin A 369

AARON ARNOLD AND JESSY S. SCHAD. Evaluation of nitrogen source materials by an intraperitoneal rat test. One figure 377

E. S. NASSET AND MARGARET T. ELY. Nitrogen balance of adult rats fed diets low in L- and DL-lysine, or devoid of arginine. One figure 391

BARNETT SURE AND LESLIE EASTERLING. Evaluation of the biological values of the proteins in fish meals by the nitrogen retention method 401

Borden Award in Nutrition 407

Osborne and Mendel Award 408

No. 4 DECEMBER 1952

H. L. Klug, R. D. Harshfield, R. M. Pengra and A. L. Moxon. Methionine and selenium toxicity. Five figures 409

W. G. Hoekstra, A. L. Pope and P. H. Phillips. Synthesis of certain B-vitamins in the cobalt deficient sheep, with special reference to vitamin B_{12} 421

W. G. Hoekstra, A. L. Pope and P. H. Phillips. Response of cobalt-deficient sheep to intravenously administered vitamin B_{12}. Three figures 431

Mary Brown Patton and T. S. Sutton. The utilization of calcium from lactate, gluconate, sulfate and carbonate salts by young college women. One figure 443

René O. Cravioto, Guillermo H. Massieu, Omar Y. Cravioto and F. de M. Figueroa. Effect of untreated corn and Mexican tortilla upon the growth of rats on a niacin-tryptophan deficient diet 453

H. H. Mitchell, T. S. Hamilton and Jessie R. Beadles. The relationship between the protein content of corn and the nutritional value of the protein 461

Leon K. Knoebel and Alex Black. The influence of vitamin B_{12} and antibiotics on protein and energy utilization in a low protein diet 477

George R. Meneely, Robert G. Tucker and William J. Darby. Chronic sodium chloride toxicity in the albino rat. I. Growth on a purified diet containing various levels of sodium chloride 489

L. V. Curtin, J. K. Loosli, Jean Abraham, H. H. Williams and L. A. Maynard. The methionine requirement for the growth of swine 499

Leslie P. Dryden, Arthur M. Hartman and Charles A. Cary. The relation between vitamin B_{12} deficiency and lactation in rats fed purified casein rations. One figure 509

Paul E. Waibel, W. W. Cravens and Esmond E. Snell. The effect of diet on the comparative activities of pyridoxal, pyridoxamine and pyridoxine for chicks 531

G. W. Anderson, J. D. Cunningham and S. J. Slinger. Effect of terramycin and certain phenylarsonic acid derivatives on the growth and intestinal flora of turkey poults 539

Rebecca B. Hubbell and W. A. Krehl. The relation of the rate of growth to the diet. A study of a stock colony ration for albino rats 553

Borden Award in Nutrition 559

Osborne and Mendel Award 560

INDEX

ABNORMALITIES, production in young of multiple congenital, by maternal pteroylglutamic acid deficiency during gestation, 61.
ABRAHAM, J. See Curtin, L. V., 499.
Acrodynia, factors affecting development in pyridoxine-deficient rats, 325.
Adult rats (see Rats, adult).
Albino rat(s) (see Rat(s), albino).
ALEXANDER, J. C., AND D. C. HILL. The effect of heat on the lysine and methionine in sunflower seed oil meal, 149.
AMERICAN INSTITUTE OF NUTRITION, 115.
Editor of Journal of Nutrition, report, 116.
Election of officers for 1952–53, 119.
Committees for 1952–53, 122.
New members elected, 116.
Amino acid(s) and peptone ingestion, effect upon concentrations of tissue amino acids, 139.
—— availability to microorganisms, nutritional evaluation of food proteins by measuring. I., 231.
—— (tissue), effect of peptone and amino acid ingestion upon concentrations of, 139.
ANDERSON, G. W., J. D. CUNNINGHAM AND S. J. SLINGER. Effect of terramycin and certain phenylarsonic acid derivatives on the growth and intestinal flora of turkey poults, 539.
Antibiotics, influence on protein and energy utilization in low protein diet, 477.
Arginine, nitrogen balance of adult rats fed diets devoid of, 391.
ARNOLD, A., AND J. S. SCHAD. Evaluation of nitrogen source materials by an intraperitoneal rat test, 377.
Ascorbic acid, blood levels of, during ascorbic acid depletion and repletion, 49.
—— depletion and repletion, tyrosine metabolism and blood levels of ascorbic acid during, 49.
—— nutritional studies of the chinchilla, with special reference to, 31.
—— nutriture in the human. I. Tyrosine metabolism and blood levels of ascorbic acid during ascorbic acid depletion and repletion, 49.
ASLING, C. W. See Nelson, M. M., 61.
Award, Borden, in nutrition, announcement, 1953, 123, 296; presentation, 1952, 121.
— Osborne and Mendel, announcement, 1953, 124, 295; presentation, 1952, 121.
— Mead Johnson vitamin B-complex, presentation, 1952, 121.

B vitamin(s) deficiencies, lipogenesis in certain, 345.
—— synthesis of certain, in cobalt-deficient sheep, with special reference to vitamin B_{12}, 431.
Balance, nitrogen, of adult rats fed diets low in L- and DL-lysine, or devoid of arginine, 391.
Basal heat production and elimination of 13 normal women at temperatures from 22°C. to 35°C., 257.
— metabolism (see Metabolism, basal).
BEADLES, J. R. See Mitchell, H. H., 461.
BEARE, J. L. See Beaton, J. R., 325.
BEATON, J. R., J. L. BEARE AND E. W. MCHENRY. Factors affecting the development of acrodynia in pyridoxine-deficient rats, 325.
BECK, L. W. See Mattson, F. H., 335.
BENEDICT, J. H. See Mattson, F. H., 335.
BERGEIM, O. See Sheffner, A. L., 139.
BERGQUIST, L. M. See Cheng, A. L. S., 161.
Betaine, effect of vitamin B_{12} upon utilization by young poult, 201.
Biological values of proteins in fish meals, evaluation by nitrogen retention method, 401.
BLACK, A. See Knoebel, L. K., 477.
Blood levels of ascorbic acid during ascorbic acid depletion and repletion, 49.
— of swine fed supplemental levels of pantothenic acid, pantothenic acid content of, 317.
— thiamine values, daily. Thiamine metabolism of women on controlled diets. II., 307.
BLUM, A. E. See Horn, M. J., 231.
BOOTH, V. H. Liver storage of vitamin A by male and female rats, 13.
Borden award in nutrition, announcement, 1953, 123, 296; presentation, 1952, 121.
BOWLAND, J. P. See Owen, B. D., 317.

CALCIUM, utilization from lactate, gluconate, sulfate and carbonate salts by young college women, 443.
Caloric and fat restriction, effect of dietary, on protein utilization, 243.
Carbohydrate and fat, influence of dietary, on reproduction and lactation in rats, 91.
Carbonate, lactate, gluconate and sulfate salts, utilization of calcium from, by young college women, 443.
Carotene, fate of lycopene in rat and its effects on utilization of, 369.
CARY, C. A. See Dryden, L. P., 509.
Casein rations, purified, relation between vitamin B_{12} deficiency and lactation in rats fed, 509.
CERECEDO, L. R., F. P. PANZARELLA, A. B. VASTA AND E. C. DERENZO. Studies on essential fatty acid deficiency in three strains of mice, 41.
CHAMBERS, W. H. Biography of Max Rubner, 3.
CHENG, A. L. S., G. D. KEYDER, L. M. BERGQUIST AND H. J. DEUEL, JR. The effect of fat level of the diet on general nutrition. IX. The relationship of radiation injury in the rat to the fat content of the diet, 161.
Chicks, effect of diet on comparative activities of pyridoxal, pyridoxamine and pyridoxine for, 531.
— utilization of homocystine, choline and related compounds, 209.
Chinchilla, nutritional studies of, with special reference to ascorbic acid and thiamine, 31.
Chloride, sodium (see Sodium chloride).

Choline, effect of vitamin B_{12} upon utilization by young poult, 201.
— homocystine and related compounds, utilization by chicks, 209.
Cobalt-deficient sheep, response to intravenously administered B_{12}, 421.
— — synthesis of certain B vitamins in, with special reference to vitamin B_{12}, 431.
College women (see Women).
COLLINS, R. A. See Schreiber, M., 125.
Congenital abnormalities, production of multiple, in young by maternal pteroylglutamic acid deficiency during gestation, 61.
Corn, effect of untreated, upon growth of rats on a niacin-tryptophan deficient diet, 453.
— relationship between protein content of, and nutritional value of the protein, 461.
Cottonseed proteins. Nutritional evaluation of food proteins by measuring availability of amino acids to microorganisms. I., 231.
CRAVENS, W. W. See Waibel, P. E., 531.
CRAVIOTO, O. Y. See Cravioto, R. O., 453.
CRAVIOTO, R. O., G. H. MASSIEU, O. Y. CRAVIOTO AND F. DE M. FIGUEROA. Effect of untreated corn and Mexican tortilla upon the growth of rats on a niacin-tryptophan deficient diet, 453.
Creatinine, diminished urinary, in vitamin E-deficient rats, 193.
— excretion, daily urinary thiamine excretion and its relation to. Thiamine metabolism of women on controlled diets. I., 297.
CUNNINGHAM, J. D. See Anderson, G. W., 539.
CURTIN, L. V., J. K. LOOSLI, J. ABRAHAM, H. H. WILLIAMS AND L. A. MAYNARD. The methionine requirement for the growth of swine, 499.

DARBY, W. J. See Meneely, G. R., 489.
DAY, H. G. See High, E. G., 369.
DERENZO, E. C. See Cerecedo, L. R., 41.
Dermatosis in weanling rats fed lactose diets. I. The influence of relative humidity and diet, 125.
DEUEL, H. J., JR. See Cheng, A. L. S., 161.
Diet(s) and relative humidity, influence of. Dermatosis in weanling rats fed lactose diets. I., 125.
— controlled, thiamine metabolism of women on. I., 297; II., 307.
— effect of level of fat in, on growth performance of dogs, 81.
— — on comparative activities of pyridoxal, pyridoxamine and pyridoxine for chicks, 531.
— — on general nutrition of fat level of. IX., 161.
— lactose, dermatosis in weanling rats fed. I., 125.
— low in L- and DL-lysine, or devoid of arginine, nitrogen balance of adult rats fed, 391.
— — protein, influence of vitamin B_{12} and antibiotics on protein and energy utilization in, 477.
— niacin-tryptophan deficient, effect of untreated corn and Mexican tortilla upon growth of rats on a, 453.
— purified, containing various levels of sodium chloride, growth of albino rat on, 489.
— relation of rate of growth to. Study of stock colony ration for albino rats, 553.
— relationship of fat content of, to radiation injury in rat, 161.
Dietary fat and caloric restriction, effect on protein utilization, 243.
— — and carbohydrate, influence on reproduction and lactation in rats, 91.
Digestion of triglycerides, intermediates formed during, 335.
DING, K. See Louhi, H. A., 297.
Dogs, effect of level of fat in diet on growth performance of, 81.
DRYDEN, L. P., A. M. HARTMAN AND C. A. CARY. The relation between vitamin B_{12} deficiency and lactation in rats fed purified casein rations, 509.
DUBÉ, R. B., E. C. JOHNSON, H. H. YÜ AND C. A. STORVICK. Thiamine metabolism of women on controlled diets. II. Daily blood thiamine values, 307.
DUBOIS, E. F., F. G. EBAUGH, JR., AND JAMES D. HARDY. Basal heat production and elimination of 13 normal women at temperatures from 22°C. to 35 C., 257.

EASTERLING, L. See Sure, B., 401.
EBAUGH, F. G., JR. See Dubois, E. F., 257.
EDWARDS, J., JR. See Rodahl, K., 359.
Elimination and production, basal heat, of 13 normal women at temperatures from 22°C. to 35°C., 257.
ELVEHJEM, C. A. See Schreiber, M., 125.
ELY, M. T. See Nasset, E. S., 391.
Energy utilization in low protein diet, influence of vitamin B_{12} and antibiotics on, 477.
ENGEL, E. See Sobel, A. E., 183.
Eskimo, basal metabolism of, 359.
EVANS, H. M. See Nelson, M. M., 61.
Excretion, creatinine, daily urinary thiamine excretion and its relation to. Thiamine metabolism of women on controlled diets. I., 297.
— urinary (see Urinary excretion).

FAT and caloric restriction, effect of dietary, on protein utilization, 243.
— and carbohydrate, influence of dietary, on reproduction and lactation in rats, 91.
— content of diet, relationship of radiation injury in rat to, 161.
— in diet, effect of level on growth performance of dogs, 81.
— level of diet, effect on general nutrition. IX. The relationship of radiation injury in the rat to the fat content of the diet, 161.
— soluble vitamins, intravenous injection of, and transfer to milk of injected vitamin A, 183.
Fatty acid deficiency, essential, in three strains of mice, 41.
Female rats (see Rats).
FIGUEROA, F. DE M. See Cravioto, R. O., 453.
Fish meals, evaluation of biological values of proteins in, by nitrogen retention method, 401.
Flora, intestinal (see Intestinal flora).
Food proteins, nutritional evaluation of, by measuring availability of amino acids to microorganisms. I., 231.
FRENCH, C. E., R. H. INGRAM, L. K. KNOBEL AND R. W. SWIFT. The influence of dietary fat and carbohydrate on reproduction and lactation in rats, 91.

GERSDORFF, C. E. F. See Horn, M. J., 231.
Gestation, production of multiple congenital abnormalities in young by maternal pteroylglutamic acid deficiency during, 61.

Gluconate, lactate, sulfate and carbonate salts, utilization of calcium from, by young college women, 443.
GRAVES, B. J. See Louhi, H. A., 297.
Growth of albino rat on a purified diet containing various levels of sodium chloride, 489.
— of rats on a niacin-tryptophan deficient diet, effect of untreated corn and Mexican tortilla upon, 453.
— of swine, methionine requirement for, 499.
— of turkey poults, effect of terramycin and certain phenylarsonic acid derivatives on, 539.
— performance of dogs, effect of level of fat in diet on, 81.
— relation of rate of, to diet. Study of stock colony ration for albino rats, 553.
GRUMMER, R. H. See Sheffy, B. E., 103.
GUGGENHEIM, K., AND R. E. OLSON. Studies of lipogenesis in certain V-vitamin deficiencies, 345.

HAMILTON, T. S. See Mitchell, H. H., 461.
HARDIN, J. O. See Hove, E. L., 193.
HARDY, J. D. See Dubois, E. F., 257.
HARSHFIELD, R. D. See Klug, H. L., 409.
HARTMAN, A. M. See Dryden, L. P., 509.
HAWTHORNE, B. E. See Louhi, H. A., 297.
Heat, effect on lysine and methionine in sunflower seed oil meal, 149.
— production and elimination, basal, of 13 normal women at temperatures from 22°C. to 35°C., 257.
HIGH, E. G., AND H. G. DAY. Fate of lycopene in the rat and its effects on the utilization of carotene and vitamin A, 369.
HILL, D. C. See Alexander, J. C., 149.
HOEKSTRA, W. G., A. L. POPE AND P. H. PHILLIPS. Response of cobalt-deficient sheep to intravenously administered B_{12}, 431. Synthesis of certain B vitamins in the cobalt-deficient sheep, with special reference to vitamin B_{12}, 421.
Homocystine, choline and related compounds, utilization by chicks, 209.
HORN, M. J., A. E. BLUM, M. WOMACK AND C. E. F. GERSDORFF. Nutritional evaluation of food proteins by measuring availability of amino acids to microorganisms. I. Cottonseed proteins, 231.
HOVE, E. L., AND J. O. HARDIN. Diminished urinary creatinine in vitamin E-deficient rats, 193.
HSU, C. See Steele, B. F., 49.
HUBBELL, R. B., AND W. A. KREHL. The relation of the rate of growth to the diet. A study of a stock colony ration for albino rats, 553.
Human (see Man).
Humidity, relative, and diet, influence of. Dermatosis in weanling rats fed lactose diets. I., 125.

INGRAM, R. H. See French, C. E., 91.
Injury, radiation, in rat, relationship to fat content of diet, 161.
Intermediates formed during digestion of triglycerides, 335.
Intestinal flora of turkey poults, effect of terramycin and certain phenylarsonic acid derivatives on, 539.
Intraperitoneal rat test, evaluation of nitrogen source materials by, 377.
Intravenous injection of fat-soluble vitamins and transfer to milk of injected vitamin A, 183.
Intravenously administered B_{12}, response of cobalt-deficient sheep to, 421.

JOHNSON, E. C. See Dubé, R. B., 307.
JUKES, T. H., AND E. L. R. STOKSTAD. Further observations on the utilization of homocystine, choline and related compounds by chicks, 209.

KING, K. W., AND F. S. ORCUTT. Nutritional studies of the chinchilla, with special reference to ascorbic acid and thiamine, 31.
KLUG, H. L., R. D. HARSHFIELD, R. M. PENGRA AND A. L. MOXON. Methionine and selenium toxicity, 409.
KNOEBEL, L. K., AND A. BLACK. The influence of vitamin B_{12} and antibiotics on protein and energy utilization in a low protein diet, 477.
— See French, C. E., 91.
KOSKO, S. H. See Dubé, R. B., 307.
KRATZER, F. H. The effect of vitamin B_{12} upon the utilization of choline and betaine by the young poult, 201.
KREHL, W. A. See Hubbell, R. B., 553.
KRYDER, G. D. See Cheng, A. L. S., 161.

LACTATE, gluconate, sulfate and carbonate salts, utilization of calcium from, by young college women, 443.
Lactation and vitamin B_{12} deficiency, relation between, in rats fed purified casein rations, 509.
— in rats, influence of dietary fat and carbohydrate on, 91.
— nitrogen constituents of sow's milk as affected by stage of, 103.
Lactose diets, dermatosis in weanling rats fed. I., 125.
Lipogenesis in certain B-vitamin deficiencies, 345.
Liver storage of vitamin A by male and female rats, 13.
LOOSLI, J. K. See Curtin, L. V., 499.
LOUHI, H. A., H. H. YÜ, B. E. HAWTHORNE AND C. A. STORVICK. Thiamine metabolism of women on controlled diets. I. Daily urinary thiamine excretion and its relation to creatinine excretion, 297.
Lycopene, fate in rat and effects on utilization of carotene and vitamin A, 369.
Lysine (D- and DL-), nitrogen balance of adult rats fed diets low in, 391.
— in sunflower seed oil meal, effect of heat on, 149.

MALE rats (see Rats).
Man, ascorbic acid nutriture in. I., 49.
MARTIN, J. B. See Mattson, F. H., 335.
MASSIEU, G. H. See Cravioto, R. O., 453.
Maternal pteroylglutamic acid deficiency during gestation, production of multiple congenital abnormalities in young by, 61.
MATTSON, F. H., J. H. BENEDICT, J. B. MARTIN AND L. W. BECK. Intermediates formed during the digestion of triglycerides, 335.
MAX RUBNER (1854–1932), 3.
MAYNARD, L. A. See Curtin, L. V., 499.
MCFARLAND, S. S. See Dubé, R. B., 307.
MCHENRY, E. W. See Beaton, J. R., 325.
Mead Johnson vitamin B-complex award, presentation, 1952, 121.

MENEELY, G. R., R. G. TUCKER AND W. J. DARBY. Chronic sodium chloride toxicity in the albino rat. I. Growth on a purified diet containing various levels of sodium chloride, 489.
Metabolism, basal, of the Eskimo, 359.
— thiamine, of women on controlled diets. I. Daily urinary thiamine excretion and its relation to creatinine excretion, 297; II. Daily blood thiamine values, 307.
— (tyrosine) and blood levels of ascorbic acid during ascorbic acid depletion and repletion, 49.
Methionine and selenium toxicity, 499.
— in sunflower seed oil meal, effect of heat on, 149.
— requirement for growth of swine, 499.
Mexican tortilla, effect upon growth of rats on a niacin-tryptophan deficient diet, 539.
Mice, essential fatty acid deficiency in three strains of, 41.
Microorganisms, availability of amino acids to, nutritional evaluation of food proteins by measuring, I., 231.
Milk of swine fed supplemental levels of pantothenic acid, pantothenic acid content of, 317.
— sow's, nitrogen constituents of, as affected by ration and stage of lactation, 103.
— transfer to, of injected vitamin A, intravenous injection of fat-soluble vitamins and, 183.
MITCHELL, H. H., T. S. HAMILTON AND J. R. BEADLES. The relationship between the protein content of corn and the nutritional value of the protein, 461.
MOXON, A. L. See Klug, H. L., 409.

NASSET, E. S., AND M. T. ELY. Nitrogen balance of adult rats fed diets low in L- and DL-lysine, or devoid of arginine, 391.
NELSON, M. M., C. W. ASLING AND H. M. EVANS. Production of multiple congenital abnormalities in young by maternal pteroylglutamic acid deficiency during gestation, 61.
Niacin-tryptophan deficient diet, effect of untreated corn and Mexican tortilla upon growth of rats on a, 453.
NIÑO-HERRERA, H. See Schreiber, M., 125.
Nitrogen balance of adult rats fed diets low in L- and DL-lysine, or devoid of arginine, 391.
— constituents of sow's milk as affected by ration and stage of lactation, 103.
— retention method, evaluation of biological values of proteins in fish meals by, 401.
— source materials, evaluation by intraperitoneal rat test, 377.
Normal women (see Women, normal).
Nutrition, Borden award in (see Borden award in nutrition).
— general, effect of fat level of diet on, IX., 161.
Nutritional evaluation of food proteins by measuring availability of amino acids to microorganisms. I. Cottonseed proteins, 231.
— studies of the chinchilla, with special reference to ascorbic acid and thiamine, 31.
— value of the protein, relationship between protein content of corn and, 461.
Nutriture, ascorbic acid, in the human, I., 49.

OIL meal (sunflower seed), effect of heat on lysine and methionine in, 149.
OLSON, R. E. See Guggenheim, K., 345.
ORCUTT, F. S. See King, K. W., 31.
Osborne and Mendel award, announcement, 1953, 124, 295; presentation, 1952, 121.
OWEN, B. D., AND J. P. BOWLAND. The pantothenic acid content of the blood and milk of swine fed supplemental levels of the vitamin, 317.

PANTOTHENIC acid content of blood and milk of swine fed supplemental levels of the vitamin, 317.

PIERCE, Z. H. See Steele, B. F., 49.
POPE, A. L. See Hoekstra, W. G., 431, 421.
Poults, turkey (see Turkey poults).
Proceedings of the American Institute of Nutrition (see American Institute of Nutrition).
Protein(s) content of corn and nutritional value of the protein, relationship between, 461.
— cottonseed, Nutritional evaluation of food proteins by measuring availability of amino acids to microorganisms, I., 231.
— food, nutritional evaluation of, by measuring availability of amino acids to microorganisms, I., 231.
— in fish meals, evaluation of biological values of, by nitrogen retention method, 401.
— relationship between protein content of corn and nutritional value of the, 461.
— utilization, effect of dietary fat and caloric restriction on, 243.
— — in low protein diet, influence of vitamin B_{12} and antibiotics on, 477.
Pteroylglutamic acid deficiency, maternal, during gestation, production of multiple congenital abnormalities in young by, 61.
Purified casein rations, relation between vitamin B_{12} deficiency and lactation in rats fed, 509.
— diet containing various levels of sodium chloride, growth of albino rat on, 489.
Pyridoxal, pyridoxamine and pyridoxine, effect of diet on comparative activities of, for chicks, 531.
Pyridoxamine, pyridoxal and pyridoxine, effect of diet on comparative activities of, for chicks, 531.
Pyridoxine deficient rats, factors affecting development of acrodynia in, 325.
— pyridoxal and pyridoxamine, effect of diet on comparative activities of, for chicks, 531.

RADIATION injury in rat, relationship to fat content of diet, 161.
Rat(s), adult, fed diets low in L- and DL-lysine, or devoid of arginine, nitrogen balance of, 391.
— albino, chronic sodium chloride toxicity in, I., 489.
— — study of stock colony ration for. Relation of rate of growth to diet, 553.
— fate of lycopene in, and its effects on utilization of carotene and vitamin A, 369.

— fed purified casein rations, relation between vitamin B_{12} deficiency and lactation in, 509.
— influence of dietary fat and carbohydrate on reproduction and lactation in, 91.
— male and female, liver storage of vitamin A by, 13.
— on a niacin-tryptophan deficient diet, effect of untreated corn and Mexican tortilla upon growth of, 453.
— pyridoxine-deficient, factors affecting development of acrodynia in, 325.
— relationship of radiation injury in, to fat content of diet, 161.
— test, intraperitoneal, evaluation of nitrogen source materials by, 377.
— vitamin E-deficient, diminished urinary creatinine in, 193.
— weanling, fed lactose diets, dermatosis in. I., 125.
— young, production of multiple congenital abnormalities in, by maternal pteroylglutamic acid deficiency during gestation, 61.
Ration(s), nitrogen constituents of sow's milk as affected by, 103.
— purified casein, relation between vitamin B_{12} deficiency and lactation in rats fed, 509.
— (stock colony), study of, for albino rats. Relation of rate of growth to diet, 509.
Reproduction in rats, influence of dietary fat and carbohydrate on, 91.
